**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**OFFICIAL ACTION*****Election***

Claims 1-89 and 92 of Group I are generic to a plurality of disclosed patentably distinct species of a composition comprising an indolinone of formula (I):

Applicant is required, pursuant to 35 U.S.C. § 121, to elect not only a single disclosed indolinone species, but also a specific composition delineating a particular species of each respective component within said composition, namely a particular carrier, diluent, binder, disintegrant and lubricant, in addition to a particular weight ratio, or range thereof, of each of said respective components, for further prosecution, even in the event that this election requirement is traversed.

*Applicant is advised that a fully responsive reply to this requirement must include an explicit identification of the specific species that is elected consonant with this requirement, and a listing of all claims, including any claims subsequently added thereto, which are readable upon the elected species. Generic claims that are not listed by the Applicant as being readable upon the elected species will be withdrawn from prosecution on the merits. An argument that a claim is allowable or that claims are not generic is considered nonresponsive unless accompanied by an election of a specific species.*

Upon the allowance of a generic claim, Applicant will be entitled to a consideration of claims that are directed to additional species which are written in dependent form or otherwise

include all the limitations of an allowed generic claim as provided by 37 CFR § 1.141. If claims are added after the election, Applicant must explicitly indicate which claims are readable upon the elected species. See MPEP § 809.02(a).

Should Applicant traverse on the ground that the species are not patentably distinct, Applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is in fact the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103(a) of the other inventions.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named Inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17(i).

#### ***Remarks***

Due to difficulties associated with accurately interpreting the chemical structures present within claims 4, 76 and 77, Applicant is respectfully requested to submit a cleaner, more decipherable set of claims with the chemical structures having improved optical clarity imparted thereto so as to facilitate examination on the merits of said claims.
